

Texas Medical Center Apartment Ministry for Patients & Families

InSpirit Patient Housing

The InSpirit Patient Housing serves the Texas Medical Center (TMC) patients and families by providing affordable furnished apartments near TMC for those in long term treatments.

The churches that make up InSpirit Patient Housing have been bringing financially manageable housing to Texas Medical Center patients and their families and friends for forty years. The coalition, originally named "The Church Apartment Ministry", began as an informal collaboration of churches, all with a shared commitment to serving people who travel to Houston for serious medical care. Each church leases, maintains, furnishes, and sublets its own apartments, and the group shares a common application process—with the goal of ensuring that those who need an apartment can get one at the right time.
